Overall Communication	Overall Communication
Overall Score:	Overall Score:

The licensed ESL staff in Peabody Public Schools recommends ELL services to develop the English academic language proficiency of \_\_\_\_\_ (child's name) based on the English Language Proficiency Testing that was conducted by using the \_\_\_\_\_ test. It is your right as a parent to decline services for your child. By signing and dating this form below and returning it to the ESL teacher at your child's school, you will indicate that you **do not** want your child to receive services in the Peabody English Language Learners Program. However, as required by the Massachusetts Department of Elementary and Secondary Education, your child will participate annually in the ACCESS test to assess English Language Development growth, and the results of that test will be sent to you for your review. A copy of this form will be maintained in your child's cumulative file.
